Meet the Artist CHARLENE

Charlene begins her creative process with mindfulness and meditation, followed by extensive research. Each image she hand-draws onto metal holds deep meaning, symbolizing harmony with nature and naturopathic wisdom. She meticulously carves intricate patterns, infusing each pendant with symbolic energy to bring each piece to life.

Charlene's passion for crafting manifests in intricate and beautiful patterns, as she transforms raw materials into unique works of art. Starting with a blank pendant template excites Charlene the most, as it represents endless creative possibilities.

“ Our modern society's disconnection with the rhythms of nature has caused many ills, in my belief, both physical and spiritual. My intent is to spread the practical message of naturopathy and inspire a deeper connection with the Earth.

— Charlene Rountree

Tips for Fast Sales & Display:

We have received numerous feedback from stores on what methods facilitate our necklaces to sell the fastest. Here are some tips:

- Keep price points between \$17-\$21. We have seen this mid-range to be optimal for our craft pieces for maximum revenue gain.
- Display pieces in a V- formation on top of gift boxes. Displaying pendants in this fashion has been proven to garner more attention to them.
